No way. what's happening to me ?
My body is reacting when I listen to his songs
When I listen to his music. I get so turned on
It's been several years
From the first time I met Sato till now

I adore him
He's like a God
For me, Sato is
Like my rival
Regardless what he does and his intentions
It piques my interest
So cunning
Once I listen to that song
The rhythm reverberates throughout my body, and I'm unable to refuse him

Feels good ...

I feel like his dick is still inside me
Sigh
